SPECIAL NOTICE: This list is intended for the TRADE ONLY. If it reaches people NOT entitled to Trade Prices, we will thank any Nurseryman or Florist to advise us, so that our mailing list may be corrected. We do not employ agents. We do not pack dealers' orders on our grounds. We do not authorize dealers to use our name.

CHASE, ALABAMA,

October 1, 1934.

To The Trade:

Our hopes, expressed in last Spring's "*Hopeful*" Trade List, seem to have panned out, and we feel that we can remove the touch of red from our cover (substituting GREEN), although that cover is still of our box-lining paper. Perhaps by next year, if conditions continue on their upward trend, we will be able to swing back to our old yellow "deluxe" cover of the past years; and maybe include some of those half-tone cuts, as of old.

With two railroad lines and two telegraph companies at our finger tips, we are able to render you double-quick, non-stop service. If you are unfamiliar with this speedy Chase procedure, may we suggest that you mark an order "RUSH", and see what happens?

To those of you who have done business with us through these many years, our deepest appreciation for your confidence, which has enabled us to carry on. If you others who have never tried us will give us a trial order, we promise you that you will return for more.

Terms and Conditions

SHIPMENTS

Please state how you want your shipments made, whether by freight or express; also route. Where no instructions are given, we will ship as we think best serves your interests without assuming responsibility.

The risk and cost of transportation belongs to purchaser.

TERMS

Sixty days net; 2 per cent 10 days; 1 per cent 30 days. April 1st dating on winter shipments for spring use.

Interest at 6 per cent from maturity on over-due accounts.

C. O. D. orders must be accompanied by one-fourth cash.

PRICES

This List is intended for the TRADE and should be found only in the hands of people who buy our products for resale at a profit.

Heretofore we have printed but one price as our stock warranted, reserving the right to increase prices on long assorted lists of small quantities. This practice has resulted in confusion and is eliminated. This season we print two prices on many items. To obtain the hundred rate on items priced per ten and per hundred, orders must consist of at least fifty plants and not less than ten of a variety in one grade; orders for less than ten of one variety and grade will be billed at the ten rate.

Prices do not include packing—see schedule of box and bale charges.

All prices are subject to market changes.

GRADES

We grade liberally. All shrubs of specified sizes are well furnished and well rooted. Culls are as rigidly excluded from the lightest grades listed as from the heavier stock. Our rule is "When in doubt, put it in the lower grade." Detailed information as to our method of grading Hedge Plants and Roses is given elsewhere in this list.

LIABILITY AND CLAIMS

We are not liable for injury to stock from frost, hail, fire, or other causes beyond our control, and book all orders with this understanding. While we use every means at our command to secure prompt delivery, we are not liable for delays in transit; our responsibility ends upon delivery in good order to railway company. Remedy for loss must lie between the buyer and the railway company, but we will gladly render all the aid we can. All claims must be made immediately after receipt of stock.

NON-WARRANTY CLAUSE

We give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any nursery stock, seeds, bulbs or plants we sell.

PACKING CHARGES

SCHEDULE OF BOX AND BALE CHARGES.

We use bone-dry, high grade boxing lumber that is light and strong, and makes a good looking package.

	6 to 7½ Ft.
30 x 30	\$2.75
24 x 30	2.50
24 x 24	2.25
18 x 24	2.00
18 x 18	1.75
15 x 15	1.50
12 x 12	1.25

Longer or shorter boxes will be charged in proportion to above schedule.

Bales: 25c to \$2.50, according to size.

There is no packing charge on bulk or car loads.

CALIFORNIA, July 1, 1934: "As we were well satisfied with the quality of the stock furnished us in the spring, we would like to place a considerable larger order with you this winter."

Broadleaved Evergreens

We specify "BB" (Balled-and-Burlapped) where we think this method is best. In our judgment, the grades or varieties priced "NR" (Naked Roots) can be safely handled that way. The saving in freight or express charges on NR as against BB, is a big item. Evergreen stock handled NR must never be allowed to dry out, the roots must never be exposed to sun and air. If on arrival you cannot plant immediately, cut the bunches open and heel in, in sand or dirt under a shed, in a cellar, barn or outhouse where wind and sun cannot reach them, but where the plants will have circulation of air through the tops. Ample moisture is supplied by us in packing material to carry the shipment safely. The trick is to keep the roots always moist, and give the tops a chance to breathe. We pack in ventilated cases or bales..

NOTE: If you wish "NR" items shipped "BB", ADD to listed price as per schedule below. If you wish "BB" items shipped "NR", DEDUCT from the BB price as per schedule.

Plants under 2 feet.....	10c

WISTERIA Sierra Madre.

"The Sierra Madre Wisteria is the most gorgeous bower of flowering beauty to be found in the United States, and is said to be one of the largest in the world. The mother plant, which has passed its fortieth year, is growing on the estate of Mrs. Estelle Haines Fennel, in the beautiful city of Sierra Madre, California. The trunk of this giant plant would support a stately tree, and has spread its flowering branches over many acres. Each spring the entire grounds are covered with long drooping racemes of lavender flowers."

Since 1913 annual Wisteria Festivals have been sponsored by different civic organizations, and thousands of visitors enjoy the loveliness of this giant of plant kingdom.

We offer a limited quantity of strong grafted plants, propagated directly from scions of the mother plant.

Hedge Plants

Hedges form a living wall or fence which grows in beauty from year to year. It serves the purpose of a fence and costs less. It often gives the desired character to a place, and a tall hedge makes an excellent screen. For low hedges or dividing lines, use Abelia or Berberis; for formal plantings, use Privets and Spireas.

Lining-Out Stock

This season we offer a better assortment of Chase's Alabama Grown LINING-OUT STOCK than ever before. All stock is first-class in every way, grown in wide nursery rows except rooted cuttings (R.C.) and seedlings (S.), which are bed-grown. Has had at least one full season of cultivation with ample space for full development. Our method of propagation produces character, stockiness, and a perfect root system that enables the plant to outlive and outgrow any bench-grown stock.

Prices named apply regardless of quantity ordered except that we cannot break bunches (25 plants to the bunch). Orders booked for late fall, winter or spring shipment as desired.

Please refer to finished stock for full description.

CONIFEROUS EVERGREENS

The following list of Chase's Lining-out CONIFERS have been twice transplanted and have stood at least two years in wide nursery rows. Established plants from open field grow off quicker and stronger than bed-grown stock. All plants are well rooted, are immediately puddled as dug, and packed in sphagnum moss to insure safe delivery and no loss in transplanting.

All are priced per 100 with puddled roots.

For full description, see finished stock.

Orders accepted for any quantity, to suit purchaser.

SUPPLIES

SPECIAL NOTICE: Because of the uncertainty of prices on many items of supplies at the time of printing this list, we cannot guarantee these prices, but will always invoice at the lowest market price. All Prices Are Subject To Market Change.

TERMS ON SUPPLIES

Cash with Order. Short profits and heavy investment compel quick cash. C. O. D. shipments satisfactory to us, but always expensive to you because of fee and return charges. **Cash with order** just as easy, saves bookkeeping—economical for us both.

EVERY ITEM TESTED

We use every item of these Supplies in our own nursery work. Some are made to our specifications. All are the best value we can find—and we have been hunting the best for forty years.

Each item is numbered for your convenience in making up orders—the number is all we need. Please add for postage on items priced f. o. b. Chase—guess liberally. Any difference, either way, to be adjusted.
